

Twist-and-Lock Pipe Rack Support System

Convenience • ISO9000 Certified • ISO14001 Certified • Fast Shipping • Competitively Priced

Pipe Rack Storage made easier with Vactor® Manufacturing's Twist-and-Lock Pipe Rack Support System

Efficient pipe rack storage on a sewer cleaner is essential to everyday application, and Vactor Manufacturing has developed a simple twist-and-lock pipe rack support system that is attached to their fold-down pipe rack. The system is positioned for easy operation, so you can store pipe faster and eliminate the use of rubber straps.

For more information or detailed specifications contact your local Vactor Dealer.
